

COMMON ACTS
OF FIVE CLAUSESMakes Progress on Bill to Cur-
tail Lords' Power.

ACCEPTS MINOR AMENDMENTS

Government, However, Declines to Agree to Any Changes Calculated to Weaken Measure—Clause Five Substitutes Five Years Instead of Seven as the Maximum Duration of Parliament—Majority Brings Closure Into Play.

London, May 3.—After the application of closure clause 2 of the parliament bill, which is the most important section of the government measure for the curtailment of the powers of the house of lords was carried in the house of commons, 299 to 195. Later clause 3 of the bill, providing that "any certificate of the speaker of the house of commons given under this act shall be conclusive for all purposes, and shall not be questioned in any court of law," was carried, after a closure, 255 to 132.

During the debate on clause 2 the government agreed to accept one or two minor amendments moved by the opposition, but rejected all which would weaken its scope. This clause relates to any bill other than a money bill and provides that if any such measure is passed by the house of commons in three successive sessions and rejected by the house of lords at each of these sessions it shall become an act of parliament on the royal assent.

Prior to amendment, clause 2 provided that this should not take effect unless two years had elapsed between the date of the first introduction of the bill and the date on which it passed the house of commons for the third time. In amended form it provides that the two-year delay shall be calculated from the date of the passing of the second reading of the bill in the house of commons, which somewhat extends the period in which the lords can delay a bill.

Denial of All Form of Redress.

Before the vote was taken Winston Spencer Churchill, the home secretary, said that the adoption of the clause was imperative, because there had come about complete paralysis of the working constitution and denial of all form of redress to those who did not belong to the Conservative party. The safeguards which the clause left the house of lords for delay and revision, he said, would still place the Liberals under great disabilities as compared with the Conservatives. That was the reason why reform of the house of lords should follow as the complement of the parliament bill.

Later, by the aid of closure, the remaining clauses, 4, 5 and 6, were adopted without amendment by large majorities.

Clause 4 provided that "nothing in this act shall diminish or qualify the existing rights and privileges of the house of commons."

Clause 5 provides for the duration of parliament, reading: "Five years shall be substituted for seven years as the time fixed for the maximum duration of parliament under the septennial act, 1715."

Clause 6 declares: "This act may be cited as the parliament act, 1910."

BRIBERY SCANDAL IS SPUR

Causes Final Action on Two Bills in
Ohio Legislature.

Columbus, O., May 3.—As a direct result of the disclosures of corruption in the Ohio legislature witnessed final action on two bills which have been held up since the beginning of the session, action on both of which was urged repeatedly by Governor Harmon. Both branches concurred in a conference report on the Russell bill to provide a central board of control for state institutions and the senate passed the Wyman bill, which previously had gone through the house, providing for the selection of United States senators on the Oregon plan.

BANGS MAKES STRONG PLEA

Counsel for Judge Cowan Ends With
Impassioned Argument.

Bismarck, N. D., May 3.—In one of the most eloquent pleas that has ever been heard in the state in behalf of any man Tracy R. Bangs made the last argument for Judge John Cowan before the state senate, sitting as a court of impeachment.

That the guilt of a man standing as the respondent must be proved beyond all reasonable doubt, that the punishment meted out is greater than that in any other proceeding and that the evidence in this case failed utterly to indicate any corruption or any crookedness upon the part of the accused were some of the contentions made by Bangs.

He set forth the cause of this proceeding as lying in the scope of Colonel Joseph M. Kelly of Devils Lake to settle at the hands of the senate a political fight that has been in progress for years.

A Strong Preference.
"She is literary, isn't she?"
"Yes, indeed; she'd rather read than do housework any day."—Exchange.

PROBE WHITE
EARTH AFFAIRSHouse Committee May Inquire
Into Indian Conditions.

DELEGATION AT WASHINGTON

Minnesota Chippewas Lay Their Grievances Before Congress and Chairman Graham of the Committee on Expenditures in the Interior Department Favors Making Thorough Inquiry Into Activities of Every Bureau.

Washington, May 3.—The administration of Indian affairs on the White Earth reservation in Minnesota may be made the subject of investigation by the house committee on expenditures in the interior department, of which Representative Graham of Illinois is chairman.

A delegation of Minnesota Chippewas, comprised of Clement Beulieu, George Barry and Rain Cloud, who took their grievances relative to conditions at White Earth to Representative Stevens of Texas, chairman of the house committee on Indian affairs, were referred by him to Representative Graham.

It is the present intention of Representative Graham to make a thorough inquiry into the activities of every bureau of the interior department.

Mr. Graham is somewhat familiar with the organization of certain branches of this department. He was one of the Democratic members of the Nelson commission on inquiry into the Ballinger-Pinchot case and he wrote the report of the minority which demanded that R. A. Ballinger be dismissed from the cabinet.

Gus Beulieu, who also is here, insists that an investigation shall be conducted.

Has Knowledge of Blunders.

"I am familiar with conditions at White Earth and I am confident that a new roll of the Indians there should be made," said Gus Beulieu. "I know of my own knowledge of blunders that have been made in land suits instituted. One of my relatives, a 'mixed blood,' is involved in one of the suits on the ground that she is a 'full blood.' Other mistakes just as ridiculous appear in the government cases."

Beulieu declares that an investigation at White Earth would disclose a state of affairs that would result in the removal of certain officials. He charges there has been great delays in preparing the cases growing out of the alienation of the lands of "mixed bloods," and he attributes this delay to a desire on the part of authorities to retain in office persons engaged in the work.

The house Democrats are disposed to investigate the Republican administration just at this time. For this reason the visiting Chippewas believe they will have little or no difficulty in interesting Chairman Graham in conditions at White Earth and elsewhere in the Indian country of Minnesota.

FREE TRADE LEGISLATION

Its History Reviewed by South Dakota
Congressman.

Washington, May 3.—Reviewing the history of free trade legislation, quoting freely from the speeches of William McKinley and Nelson Dingley in the house, and declaring that "the American people do not want a return of the hard times which free trade legislation has heretofore produced," Representative Burke of South Dakota made the principal speech of the six hours of general debate on the so-called farmers' free list bill.

Mr. Burke was unkind enough to speak to the first speech made by Speaker Clark in the house of representatives, a good many years ago, in which he expressed a desire to see every custom house in the land torn down.

You have been false prophets in the past, my Democratic brethren," said Mr. Burke. "For a period of fifty years you have been able only in one four-year term to exercise full control of the affairs of this nation and that was from 1893 to 1897."

CHURCH BAZAARS ARE RAPPED

Giving a Matter of Worship, Says
Speaker at Philadelphia.

Philadelphia, May 3.—Commercialism in churches and the raising of necessary funds by bazaars, strawberry festivals and lawn parties was condemned by Major Moses Veale in an address at the session of the national conference of church clubs.

"There is not enough of the teaching that giving is a matter of worship and of rendering to God part of what God has given us," said Major Veale.

Kittredge Slowly Sinking.
Hot Springs, Ark., May 3.—Physicians attending former Senator A. B. Kittredge of South Dakota authorized the announcement that the patient is slowly sinking.

W. E. COREY.

Former Steel Magnate Now
Director in Copper Concern.

W. E. COREY GETS NEW BERTH

Former Head of Steel Trust Elected
Director of Calumet and Arizona.

Duluth, May 3.—William E. Corey, former president of the United States Steel corporation, and Henry R. Rea of Pittsburgh, a prominent steel man, have been elected to the board of the Calumet and Arizona Mining company. Mr. Corey fills the vacancy occasioned by the resignation of L. W. Powell and Mr. Rea is an additional director. It is reported that Mr. Corey is going on the board of the Amalgamated at the next meeting and his entrance into active affairs in copper appears to confirm rumors that he will be at the head of the proposed copper merger.

MEANS REOPENING
OF LORIMER CASESenate Committee Will Report
Resolution Favorably.

Washington, May 3.—Just as it was at the last session the Lorimer case promises to become the absorbing subject with the new senate and this situation is likely to arise before Canadian reciprocity or the numerous measures sent over from the present house are taken up for consideration.

The fact became known that the senate committee on audit and control of the contingent expenses of the senate, to which was referred the La Follette resolution providing for a reopening of the Lorimer case, will report favorably on the resolution to the senate within the next few days.

That a majority of the committee is in favor of reopening the Lorimer case is known. Two members of the committee, the chairman, Senator Briggs of New Jersey, and Senator Dillingham of Vermont, voted for the vindication of Senator Lorimer at the last session of the senate, but even should they oppose the La Follette resolution they would be in the minority, for Senators Clark of Arkansas, Bristow of Kansas and Williams of Mississippi, the other members of the committee, are in favor of reopening the case and will vote to report the resolution favorably to the senate.

This action by the committee on audit and control of the contingent expenses means the reopening of the Lorimer case in the senate.

BURNED TOWN TO REBUILD

Bangor Will Not Appeal for Outside
Help.

Bangor, Me., May 3.—Between \$2,500,000 and \$3,000,000 will cover the financial loss of the fire which destroyed approximately 285 residences and about 100 business structures in the city Sunday night.

No official estimate of the loss has been made, but insurance agencies involved estimate that they will lose 60 per cent, or about \$1,500,000.

That the city will rise undiscouraged from her ashes without the necessity of asking for outside help was the sentiment expressed by Mayor Charles W. Mullen and representative citizens. Most of those who lost property are well to do and only seventy-five families were reported destitute.

To Establish Postal Banks.

Washington, May 3.—Assured of the success of the postal savings system Postmaster General Hitchcock has decided to designate from this time forward from fifty to one hundred additional postal savings banks monthly until the system has been generally established throughout the United States.

Nebraska Bank Robbed.

Hastings, Neb., May 3.—The Bank of Rosemount was entered by robbers and the safe robbed of \$1,500. The thieves escaped without leaving any clue as to their identity.

Train Kills Three Boys.

Greensburg, Pa., May 3.—Three small boys all under fifteen years old, on their way to work here, were run down and instantly killed by a Pennsylvania express train.

SMALL COTERIE
RUNNING HOUSEClark, Underwood and Fitzgerald
Are Powerful.

REFORM OF RECORD IS SLOW

Effort to Make Government Publication a True Report of What Congress Does Makes Slight Progress, and Plan to Send It to All Voters Also Has Little Support.

By ARTHUR W. DUNN.

Washington, May 3.—[Special.]—A small coterie is running the house of representatives as it has always done, no matter which party is in control. As the house is increased in size the power of this coterie will become more powerful, and the average member will be one of a majority to stand behind the small group. The English house of commons is conducted in much the same way.

The most powerful man in the house at present is Congressman Underwood. He is the floor leader and so far has not engendered any opposition in his own party. He has compelled the minority leaders to respect him and has shown good generalship in managing the house.

It would be difficult thus early in the session to group the half dozen men who really control the house, but Champ Clark, Underwood and Fitzgerald are three of them, and the most important three.

Progress Is Slow.

Those senators who want to have the Congressional Record sent to every household and those members of the house who want to reform the Record so that it will really be a record and not a vehicle to carry what members would have said if any one would listen to them are making very slow progress.

In the first place, the "leave to print" system is about the only way many congressmen can get their burning thoughts before the country, as they cannot get time to say all that they would like to in the course of a session. As to widespread circulation of the Record, it may be said that the people of this country are too well supplied with newspapers and periodical literature at low rates to care much about the Record.

Not Champ's Business.

Representative Murdock under guise of a parliamentary inquiry was trying to ascertain if different headings on different printed speeches meant that one was delivered in debate and the other under "leave to print." He said the speaker had control of such matters under the rule. "That is hardly a parliamentary inquiry," replied Champ and added, "And it is absolutely certain that the speaker is not going into the business of writing headlines for other people's speeches."

New England Is There.

Come what may, New England will have representation on the senate finance committee, which handles the tariff. Always she has at least three members on this important committee. Two members dropped out at the close of the last congress, but two others are added. There is one difference, however, at this time, as one of the new members is the only Democrat from the six New England states, Johnson of Maine.

Careless of His Record.

Congressman Cooper of Wisconsin dug up a record of sixteen years ago when Uncle Joe Cannon was making a speech and showed that the ex-speaker was somewhat inconsistent. "Why," replied Cannon, "when I first came to congress I was thirty-six years old and was for free trade. A few years later I was for free coinage of silver. But I have learned something in all these years."

"I suppose you could go through my record during the past forty years and find many inconsistencies, but I do not care. I stand for what I think is right now as I see it. No man with a long public career can keep a consistent record if he amounts to anything."

Surveying the Country.

Only a very few people are aware that the United States geological survey is engaged in making a topographical survey of the whole country. When the geological survey was first inaugurated it was for the purpose of determining the location of minerals on public lands. Now more than half of the money expended for the institution is for surveys of lands in the eastern states which have been for a century in private ownership.

Minerals seem to be of little consequence. Geology does not cut much figure, but careful maps of the surveyed districts are made for those who desire them. In many cases the states co-operate with the general government in making these surveys.

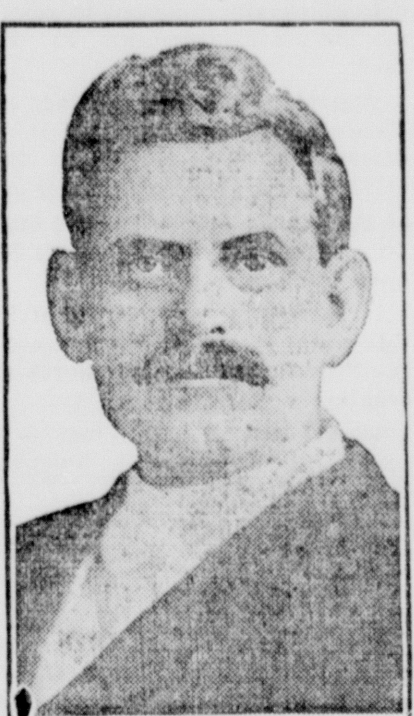

Believes in Commission Rule.

Senator Owen of Oklahoma believes in the commission governments for towns and cities as bringing them in closer touch with the people. He has found that about 200 cities in the country have tried the plan and made a success of it. So far it has not been tried in any of the very large cities where there is so much complaint about the misgovernment, but Owen believes that it would prove effective in large as well as small cities.

Now and Then.

Aiming to do right is not enough. You must score an occasional hit. New Orleans Picayune.

JAMES M. GRAHAM.

Chairman of Committee Which
May Probe White Earth Affairs.

NEBRASKA OFFICIAL DEAD

Lieutenant Governor Hopewell Victim
of Pneumonia.

Lincoln, Neb., May 3.—Lieutenant Governor M. R. Hopewell died at his home at Tekamah. Pneumonia complicated with heart trouble caused his death. He was born in Monroe county, Ind., March 27, 1845, and in 1869 was graduated from Ashbury college, now Depauw university, at Greencastle, Ind. In 1870 he located at Tekamah, Neb., and engaged in the practice of law. In 1872 he and W. B. White started the Burlington, one of the first newspapers in Northwest Nebraska. He was elected lieutenant governor in 1906 and served three terms.

GRANTS PETITION
FOR AN APPEALJudge Sanborn Acts in Minne-
sota Rate Cases.

St. Paul, May 3.—Judge Sanborn of the United States circuit court of appeals granted the petition of the state for an appeal to the supreme court in the Minnesota rate cases. In the meantime the three railroads involved will be permitted to maintain the 2-cent fare and merchandise rates now in effect or restore the 3-cent fare and the former merchandise rates, as they please.

Judge Sanborn refused to grant a continuance of the temporary injunction which was granted when the suits were originally started, but it was explained by the attorneys that the effect of this would be neither to force the companies to continue the present nor to restore the old rates. It was continued from June 1 to July 1, up to which time they are restrained from putting in the commodity rates, but are permitted, as at present, to continue the 2-cent fare and merchandise rates. After that date and until the final decision of the supreme court it will be optional with the roads as to all the rates.

THREE CHILDREN ARE KILLED

Whittemore, Ia., Scene of Fatal Train
Accident.

Whittemore, Ia., May 3.—John and Carrie Becker, aged sixteen and eleven years respectively, and Mary Kollash, aged eleven years, were killed and Edward Becker and John Kollash were injured seriously when west-bound passenger train No. 3 on the Chicago, Milwaukee and St. Paul railroad struck a lumber wagon here in which the children were returning from school to their homes two miles out in the country.

Edward Becker will recover, say physicians, but no hope is held out for the recovery of the Kollash child.

INDICTED OFFICIAL TO QUIT

City Chamberlain Hyde of New York
Will Resign His Office.

New York, May 3.—Charles H. Hyde will resign as city chamberlain at once. Under indictment and under the fire of practically every newspaper in New York he announced that, although he is the victim of "one of the most wicked conspiracies in the history of the city," he will relinquish the position in order not to embarrass the Gaynor administration. He has been the mayor's protegee for years.

Indicted secretly on two counts, one charging bribery, the other with taking an unlawful fee, Hyde pleaded not guilty in the criminal branch of the supreme court with permission to change or withdraw the plea up to May 16 and was released under \$7,500 bail.

German Aeronaut Fatally Hurt.

Muelhausen, Germany, May 3.—Lieutenant Roser of the German army, who recently obtained an aviation pilot's license, fell with his aeroplane from a height of 150 feet and was seriously injured that there is no hope of his recovery. His machine was smashed to pieces.

SERIOUS ALONG
WESTERN COAST

QUICK WORK IN DEITZ CASE

Jury Secured and Hearing of Evidence
Will Now Begin.

Hayward, Wis., May 3.—Within two hours after the trial of John F. Deitz, charged with the murder of Oscar Harp, a deputy sheriff, had opened the case had progressed so rapidly that a jury was obtained.

The case was cleared of preliminaries in a few minutes and then the actual work began, with three of Wisconsin's well known criminal lawyers on one side and John Deitz acting as leading counsel for himself, his wife and son Leslie, who are charged jointly with him.

SCOW UPSETS IN STREAM

Three Men and Two Boys Drowned in
St. John River.

Edmundston, N. D., May 3.—Three men and two boys were drowned in the St. John river near here. They were crossing from the American to the Canadian bank of the river in a ferry scow operated by a wire cable. The cable broke and the scow was upset in the freshet swollen waters.

Japanese Explorers Fail.

Sydney, Australia, May 3.—The Japanese have abandoned their effort to reach the South pole. Their ship, Kanian Maru, has arrived here, and the commander reports he was unable to penetrate the ice pack along the coast of Victoria Land. Nearly all their dogs died.

High School Boy Killed.

Lisbon, N. D., May 3.—While attempting to break a team of fractious colts Ralph McConnehey met a horrible death, being thrown violently against a stump and instantly killed. The lad was the seventeen-year-old son of Rev. Mr. McConnehey. He was a student in the high school.

Conditions in Mexico Growing
Steadily Worse.

ARMISTICE HAS NO EFFECT

Confidential Telegram to President of New York Corporation Having Extensive Interests in Mexico Paints Gloomy Picture of Situation—Americans Reported to Be Leaving as Rapidly as Possible.

New York, May 3.—According to a long confidential telegram received by the president of a corporation here having extensive interests in Mexico conditions on the west coast warrant Americans leaving that section, as they are reported to be doing in dispatches from Nogales.

"The armistice is having no ameliorating effect on the west coast," the telegram declares, "and Governor Rodo of Simolao, who has commanded a Southern Pacific train to carry troops from Mazatlan to Sullacan, cannot hope to hold more than those two points and we doubt his ability to do this much longer."

His force is declared to be totally inadequate to cope with the rebels.

This information was sent from Tucson, Ariz., and made no reference to subsequent rumors that Mazatlan actually had fallen into the hands of rebels. If this be true the surrender of the city apparently was made while a portion of Governor Rodo's force was en route to Sullacan.

The rebels began an attack on Mazatlan at 1 o'clock Saturday morning last, according to the telegram, and there was spirited fighting for an hour.

PEACE COMMISSIONER ON JOB

Formal Negotiations Between Two
Forces to Begin.

El Paso, Tex., May 3.—Judge Francisco Carabajal, official Mexican peace commissioner, arrived here, surprising every one connected with the negotiations, as he had not been expected for at least twenty-four hours more.

He immediately went into conference with Oscar Branniff, Esquire, Obregon and Rafael Hernandez, who have been acting as go betweens in the negotiations thus far.

On the conclusion of the conference Senator Branniff announced that Judge Carabajal had brought "full and necessary powers" for treating with the rebel commissioners and that no hitch would occur on that score.

It was stated that the formal negotiations would be taken up at once.

TWO AMERICANS ARE KILLED

Reports Say Man and Wife Were
Slain by Mexican Outlaws.

Douglas, Ariz., May 3.—Reports received here say that an American and his wife, names unknown, have been killed by outlaws in the interior of Sonora.

United States residents here are advising their friends in Mexico to get out of that country.

Rebels are reported to be preparing for another attack on Agua Prieta.

MINING CAMP IS RECAPTURED

Rebels Say they Are Once More in
Possession of La Colorado.

Tucson, Ariz., May 3.—The rebels say they have recaptured La Colorado, a rich mining camp, which was captured once before by the insurgents and retaken in a bloody battle by the federals.

SAMUEL GOMPERS IN CHICAGO

Labor Leader Is Looking Over Strike
Situation.

Chicago, May 3.—Important developments in union labor are expected as a result of the visit to Chicago of Samuel Gompers, president of the American Federation of Labor, Frank Mulholland of Toledo, O., counsel for the building trades branch of the federation, William Spencer, secretary-treasurer of the same branch, and Frank Ryan of Indianapolis, president of the International Bridge and Structural Iron Workers.

STRIKERS ACCEPT TERMS

Button Workers at Muscatine Vote
to Return to Work.

Muscatine, Ia., May 3.—At the mass meeting of the union button workers the agreement entered into between the manufacturers and the workers' committee through the good offices of Governor Carroll was accepted and the men will go back to work.

At the shop meetings the men voted to accept the agreement by a vote of two to one.

Thrifty.

COMMON ACTS
OF FIVE CLAUSESMakes Progress on Bill to Cur-
tail Lords' Power.

ACCEPTS MINOR AMENDMENTS

Government, However, Declines to Agree to Any Changes Calculated to Weaken Measure—Clause Five Substitutes Five Years Instead of Seven as the Maximum Duration of Parliament—Majority Brings Closure Into Play.

London, May 3.—After the application of clause 2 of the parliament bill, which is the most important section of the government measure for the curtailment of the powers of the house of lords was carried in the house of commons, 299 to 195. Later clause 3 of the bill, providing that "any certificate of the speaker of the house of commons given under this act shall be conclusive for all purposes, and shall not be questioned in any court of law," was carried, after a closure, 255 to 132.

During the debate on clause 2 the government agreed to accept one or two minor amendments moved by the opposition, but rejected all which would weaken its scope. This clause relates to any bill other than a money bill and provides that if any such measure is passed by the house of commons in three successive sessions and rejected by the house of lords at each of these sessions it shall become an act of parliament on the royal assent.

Prior to amendment, clause 2 provided that this should not take effect unless two years had elapsed between the date of the first introduction of the bill and the date on which it passed the house of commons for the third time. In amended form it provides that the two-year delay shall be calculated from the date of the passing of the second reading of the bill in the house of commons, which somewhat extends the period in which the lords can delay a bill.

Denial of All Form of Redress.

Before the vote was taken Winston Spencer Churchill, the home secretary, said that the adoption of the clause was imperative, because there had come about complete paralysis of the working constitution and denial of all form of redress to those who did not belong to the Conservative party. The safeguards which the clause left the house of lords for delay and revision, he said, would still place the Liberals under great disabilities as compared with the Conservatives. That was the reason why reform of the house of lords should follow as the complement of the parliament bill.

Later, by the aid of closure, the remaining clauses, 4, 5 and 6, were adopted without amendment by large majorities.

Clause 4 provided that "nothing in this act shall diminish or qualify the existing rights and privileges of the house of commons."

Clause 5 provides for the duration of parliament, reading: "Five years shall be substituted for seven years as the time fixed for the maximum duration of parliament under the septennial act, 1715."

Clause 6 declares: "This act may be cited as the parliament act, 1910."

BRIBERY SCANDAL IS SPUR

Causes Final Action on Two Bills in Ohio Legislature.

Columbus, O., May 3.—As a direct result of the disclosures of corruption in the Ohio legislature witnessed final action on two bills which have been held up since the beginning of the session, action on both of which was urged repeatedly by Governor Harmon. Both branches concurred in a conference report on the Russell bill to provide a central board of control for state institutions and the senate passed the Wyman bill, which previously had gone through the house, providing for the selection of United States senators on the Oregon plan.

BANGS MAKES STRONG PLEA

Counsel for Judge Cowan Arguments With Impassioned Urgency.

Bismarck, N. D., May 3.—In one of the most eloquent pleas that has ever been heard in the state in behalf of any man Tracy R. Bangs made the last argument for Judge John Cowan before the state senate, sitting as a court of impeachment.

That the guilt of a man standing as the respondent must be proved beyond all reasonable doubt, that the punishment meted out is greater than that in any other proceeding and that the evidence in this case failed utterly to indicate any corruption or any crookedness upon the part of the accused were some of the contentions made by Bangs.

He set forth the cause of this proceeding as lying in the scope of Colonel Joseph M. Kelly of Devils Lake to settle at the hands of the senate a political fight that has been in progress for years.

A Strong Preference.

"She is litigious, isn't she?"

"Yes, indeed; she'd rather read than do housework any day."—Exchange.

PROBE WHITE
EARTH AFFAIRSHouse Committee May Inquire

DELEGATION AT WASHINGTON

Minnesota Chippewas Lay Their Grievances Before Congress and Chairman Graham of the Committee on Expenditures in the Interior Department Favors Making Thorough Inquiry Into Activities of Every Bureau.

Washington, May 3.—The administration of Indian affairs on the White Earth reservation in Minnesota may be made the subject of investigation by the house committee on expenditures in the interior department, of which Representative Graham of Illinois is chairman.

A delegation of Minnesota Chippewas, comprised of Clement Beullen, George Barry and Rain Cloud, who took their grievances relative to conditions at White Earth to Representative Stevens of Texas, chairman of the house committee on Indian affairs, were referred by him to Representative Graham.

It is the present intention of Representative Graham to make a thorough inquiry into the activities of every bureau of the interior department.

Mr. Graham is somewhat familiar with the organization of certain branches of this department. He was one of the Democratic members of the Nelson committee on inquiry into the Ballinger-Pinchot case and he wrote the report of the minority which demanded that R. A. Ballinger be dismissed from the cabinet.

Gus Beullen, who also is here, insists that an investigation shall be conducted.

Has Knowledge of Blunders.

"I am familiar with conditions at White Earth and I am confident that a new roll of the Indians there had been made," said Gus Beullen. "I know of my own knowledge of blunders that have been made in land suits instituted. One of my relatives, a 'mixed blood,' is involved in one of the suits on the ground that she is a 'full blood.' Other mistakes just as ridiculous appear in the government cases."

Beullen declares that an investigation at White Earth would disclose a state of affairs that would result in the removal of certain officials. He charges there has been great delays in preparing the cases growing out of the alienation of the lands of "mixed bloods" and he attributes this delay to a desire on the part of authorities to retain in office persons engaged in the work.

The house Democrats are disposed to investigate the Republican administration just at this time. For this reason the visiting Chippewas believe they will have little or no difficulty in interesting Chairman Graham in conditions at White Earth and elsewhere in the Indian country of Minnesota.

FREE TRADE LEGISLATION

Its History Reviewed by South Dakota Congressman.

Washington, May 3.—Reviewing the history of free trade legislation, quoting freely from the speeches of William McKinley and Nelson Dingley in the house, and declaring that "the American people do not want a return of the hard times which free trade legislation has heretofore produced," Representative Burke of South Dakota made the principal speech of the six hours of general debate on the so called farmers' free list bill.

Mr. Burke was unkind enough to speak to the first speech made by Speaker Clark in the house of representatives, a good many years ago, in which he expressed a desire to see every custom house in the land torn down.

"You have been false prophets in the past, my Democratic brethren," said Mr. Burke. "For a period of fifty years you have been able only in one four-year term to exercise full control of the affairs of this nation and that was from 1893 to 1897."

CHURCH BAZAARS ARE RAPPED

Giving a Matter of Worship, Says Speaker at Philadelphia.

Philadelphia, May 3.—Commercialism in churches and the raising of necessary funds by bazaars, strawberly festivals and lawn parties was condemned by Major Moses Veale in an address at the session of the national conference of church clubs.

"There is not enough of the teaching that giving is a matter of worship and of rendering to God part of what God has given us," said Major Veale.

Kittredge Slowly Sinking.

Hot Springs, Ark., May 3.—Physicians attending former Senator A. B. Kittredge of South Dakota authorized the announcement that the patient is slowly sinking.

W. E. COREY.

Former Steel Magnate Now
Director in Copper Concern.

W. E. COREY GETS NEW BERTH

Former Head of Steel Trust Elected
Director of Calumet and Arizona.

Duluth, May 3.—William E. Corey, former president of the United States Steel corporation, and Henry R. Rea of Pittsburgh, a prominent steel man, have been elected to the board of the Calumet and Arizona Mining company. Mr. Corey fills the vacancy occasioned by the resignation of L. W. Powell and Mr. Rea is an additional director. It is reported that Mr. Corey is going on the board of the Amalgamated at the next meeting and his entrance into active affairs in copper appears to confirm rumors that he will be at the head of the proposed copper merger.

MEANS REOPENING
OF LORIMER CASESenate Committee Will Report
Resolution Favorably.

Washington, May 3.—Just as it was at the last session the Lorimer case promises to become the absorbing subject with the new senate and this situation is likely to arise before Canadian reciprocity or the numerous measures sent over from the present house are taken up for consideration.

The fact became known that the senate committee on audit and control of the contingent expenses of the senate, to which was referred the La Follette resolution providing for a reopening of the Lorimer case, will report favorably on the resolution to the senate within the next few days.

That a majority of the committee is in favor of reopening the Lorimer case is known. Two members of the committee, the chairman, Senator Briggs of New Jersey, and Senator Dillingham of Vermont, voted for the vindication of Senator Lorimer at the last session of the senate, but even should they oppose the La Follette resolution they would be in the minority, for Senators Clark of Arkansas, Bristow of Kansas and Williams of Mississippi, the other members of the committee, are in favor of reopening the case and will vote to report the resolution favorably to the senate.

This action by the committee on audit and control of the contingent expenses means the reopening of the Lorimer case in the senate.

BURNED TOWN TO REBUILD

Bangor Will Not Appeal for Outside Help.

Bangor, Me., May 3.—Between \$2,500,000 and \$3,000,000 will cover the financial loss of the fire which destroyed approximately 285 residences and about 100 business structures in the city Sunday night.

No official estimate of the loss has been made, but insurance agencies involved, or about \$1,500,000.

That the city will rise undiscouraged from her ashes without the necessity of asking for outside help was the sentiment expressed by Mayor Charles W. Mullen and representative citizens. Most of those who lost property are well to do and only seventy-five families were reported destitute.

To Establish Postal Banks.

Washington, May 3.—Assured of the success of the postal savings system Postmaster General Hitchcock has decided to designate from this time forward from fifty to one hundred additional postal savings banks monthly until the system has been generally established throughout the United States.

Nebraska Bank Robbed.

Hastings, Neb., May 3.—The Bank of Rosemount was entered by robbers and the safe robbed of \$1,500. The thieves escaped without leaving any clue as to their identity.

Train Kills Three Boys.

Greensburg, Pa., May 3.—Three small boys, all under fifteen years old, on their way to work here, were run down and instantly killed by a Pennsylvania express train.

SMALL COTERIE
RUNNING HOUSEClark, Underwood and Fitzgerald
Are Powerful.

REFORM OF RECORD IS SLOW

Effort to Make Government Publication a True Report of What Congress Does Makes Slight Progress, and Plan to Send It to All Voters Also Has but Little Support.

By ARTHUR W. DUNN.

Washington, May 3.—[Special.]—A small coterie is running the house of representatives as it has always done, no matter which party is in control. As the house is increased in size the power of this coterie will become more powerful, and the average member will be one of a majority to stand behind the small group. The English house of commons is conducted in much the same way.

The most powerful man in the house at present is Congressman Underwood. He is the floor leader and so far has not engendered any opposition in his own party. He has compelled the minority leaders to respect him and has shown good generalship in managing the house.

It would be difficult thus early in the session to group the half dozen men who really control the house, but Champ Clark, Underwood and Fitzgerald are three of them, and the most important three.

Progress Is Slow.

Those senators who want to have the Congressional Record sent to every household and those members of the house who want to reform the Record so that it will really be a record and not a vehicle to carry what members would have said if any one would listen to them are making very slow progress.

In the first place, the "leave to print" system is about the only way many congressmen can get their burning thoughts before the country, as they cannot get time to say all that they would like to in the course of a session. As to widespread circulation of the Record, it may be said that the people of this country are too well supplied with newspapers and periodical literature at low rates to care much about the Record.

Not Champ's Business.

Representative Murdock under guise of a parliamentary inquiry was trying to ascertain if different headings on different printed speeches meant that one was delivered in debate and the other under "leave to print." He said the speaker had control of such matters under the rule. "That is hardly a parliamentary inquiry," replied Champ and added, "And it is absolutely certain that the speaker is not going into the business of writing headlines for other people's speeches."

New England Is There.

Come what may, New England will have representation on the senate finance committee, which handles the tariff. Always she has at least three members on this important committee. Two members dropped out at the close of the last congress, but two others are added. There is one difference, however, at this time, as one of the new members is the only Democrat from the six New England states. Johnson of Maine.

Careless of His Record.

Congressman Cooper of Wisconsin dug up a record of sixteen years ago when Uncle Joe Cannon was making a speech and showed that the ex-speaker was somewhat inconsistent.

"Why," replied Cannon, "when I first came to congress I was thirty-six years old and was for free trade. A few years later I was for free coinage of silver. But I have learned something in all these years."

"I suppose you could go through my record during the past forty years and find many inconsistencies, but I do not care. I stand for what I think is right now as I see it. No man with a long public career can keep a consistent record if he amounts to anything."

Surveying the Country.

Only a very few people are aware that the United States geological survey is engaged in making a topographical survey of the whole country. When the geological survey was first inaugurated it was for the purpose of determining the location of minerals on public lands. Now more than half of the money expended for the institution is for surveys of lands in the eastern states which have been in a century in private ownership.

Minerals seem to be of little consequence. Geology does not cut much figure, but careful maps of the surveyed districts are made for those who desire them. In many cases the states co-operate with the general government in making these surveys.

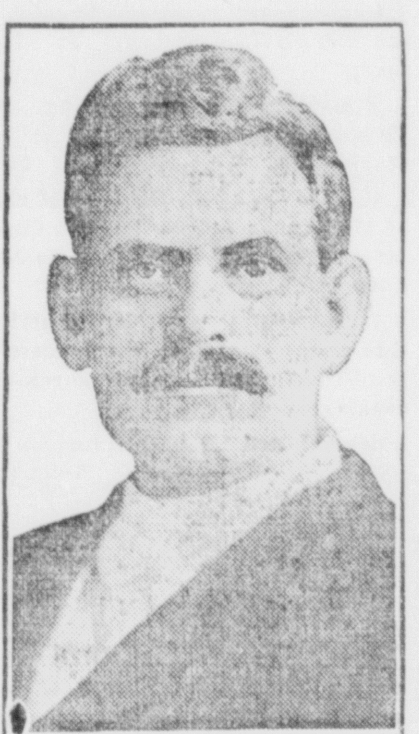

Believes in Commission Rule.

Senator Owen of Oklahoma believes in the commission governments for towns and cities as bringing them in closer touch with the people. He has found that about 200 cities in the country have tried the plan and made a success of it. So far it has not been tried in any of the very large cities where there is so much complaint about the misgovernment, but Owen believes that it would prove effective in large as well as small cities.

Now and Then.

Attempting to do right is not enough. You must score an occasional hit.—New Orleans Picayune.

JAMES M. GRAHAM.

Chairman of Committee Which
May Probe White Earth Affairs.

NEBRASKA OFFICIAL DEAD

Lieutenant Governor Hopewell Victim
of Pneumonia.

Lincoln, Neb., May 3.—Lieutenant Governor M. R. Hopewell died at his home at Tekamah. Pneumonia complicated with heart trouble caused his death. He was born in Monroe county, Ind., March 27, 1845, and in 1869 was graduated from Ashbury college, now Depauw university, at Greencastle, Ind. In 1870 he located at Tekamah, Neb., and engaged in the practice of law. In 1872 he and W. B. White started the Burlington, one of the first newspapers in Northwest Nebraska. He was elected lieutenant governor in 1906 and served three terms.

GRANTS PETITION
FOR AN APPEALJudge Sanborn Acts in Minne-
sota Rate Cases.

St. Paul, May 3.—Judge Sanborn of the United States circuit court of appeals granted the petition of the state for an appeal to the supreme court in the Minnesota rate cases. In the meantime the three railroads involved will be permitted to maintain the 2-cent fare and merchandise rates now in effect or restore the 3-cent fare and the former merchandise rates, as they please.

Judge Sanborn refused to grant a continuance of the temporary injunction which was granted when the suits were originally started, but it was explained by the attorneys that the effect of this would be neither to force the companies to continue the present nor to restore the old rates. It was continued from June 1 to July 1, up to which time they are restrained from putting in the commodity rates, but are permitted, as at present, to continue the 2-cent fare and merchandise rates. After that date and until the final decision of the supreme court it will be optional with the roads as to all the rates.

THREE CHILDREN ARE KILLED

Whittemore, Ia., Scene of Fatal Train
Accident.

Whittemore, Ia., May 3.—John and Carrie Becker, aged sixteen and eleven years respectively, and Mary Kollash, aged eleven years, were killed and Edward Becker and John Kollash were injured seriously when west-bound passenger train No. 3 on the Chicago, Milwaukee and St. Paul railroad struck a lumber wagon here in which the children were returning from school to their homes two miles out in the country.

Edward Becker will recover, say physicians, but no hope is held out for the recovery of the Kollash child.

INDICTED OFFICIAL TO QUIT

City Chamberlain Hyde of New York
Will Resign His Office.

New York, May 3.—Charles H. Hyde will resign as city chamberlain at once. Under indictment and under the fire of practically every newspaper in New York he announced that, although he is the victim of "one of the most wicked conspiracies in the history of the city," he will relinquish the position in order not to embarrass the Gaynor administration. He has been the mayor's protégé for years.

Indicted secretly on two counts, one charging bribery, the other with taking an unlawful fee, Hyde pleaded not guilty in the criminal branch of the supreme court with permission to change or withdraw the plea up to May 16 and was released under \$7,500 bail.

German Aeronaut Fatally Hurt.

Muelhausen, Germany, May 3.—Lieutenant Roser of the German army, who recently obtained an aviation pilot's license, fell with his aeroplane from a height of 150 feet and was seriously injured that there is no hope of his recovery. His machine was smashed to pieces.

SERIOUS ALONG
WESTERN COAST

QUICK WORK IN DEITZ CASE

Jury Secured and Hearing of Evidence
Will Now Begin.

Hayward, Wis., May 3.—Within two hours after the trial of John F. Deitz, charged with the murder of Oscar Harp, a deputy sheriff, had opened the case had progressed so rapidly that a jury was obtained.

The case was cleared of preliminaries in a few minutes and then the actual work began, with three of Wisconsin's well known criminal lawyers on one side and John Deitz acting as leading counsel for himself, his wife and son Leslie, who are charged jointly with him.

SCOW UPSETS IN STREAM

Three Men and Two Boys Drowned in
St. John River.

Edmundston, N. D., May 3.—Three men and two boys were drowned in the St. John river near here. They were crossing from the river in a ferry scow operated by a wire cable. The cable broke and the scow was upset in the freshet swollen waters.

Japanese Explorers Fail.

Sydney, Australia, May 3.—The Japanese have abandoned their effort to reach the South pole. Their ship, Kanan Maru, has arrived here, and the commander reports he was unable to penetrate the ice pack along the coast of Victoria Land. Nearly all their dogs died.

High School Boy Killed.

Lisbon, N. D., May 3.—While attempting to break a team of fractious colts Ralph McConnehey met a horrible death, being thrown violently against a stump and instantly killed. The lad was the seventeen-year-old son of Rev. Mr. McConnehey. He was a student in the high school.

The Cling That Chokes.

Sheep—Native, \$3.00@4.60; yearlings, \$4.40@6.40; lambs, \$4.26@6.10.

Conditions in Mexico Growing
Steadily Worse.

ARMISTICE HAS NO EFFECT

Confidential Telegram to President of New York Corporation Having Extensive Interests in Mexico Paints Gloomy Picture of Situation—Americans Reported to Be Leaving as Rapidly as Possible.

New York, May 3.—According to a long confidential telegram received by the president of a corporation here having extensive interests in Mexico conditions on the west coast warrant Americans leaving that section, as they are reported to be doing in dispatches from Nogales.

"The armistice is having no ameliorating effect on the west coast," the telegram declares, "and Governor Rodo of Simolao, who has commanded a Southern Pacific train to carry troops from Mazatlan to Sullacan, cannot hope to hold more than those two points and we doubt his ability to do this much longer."

His force is declared to be totally inadequate to cope with the rebels.

This information was sent from Tucson, Ariz., and made no reference to subsequent rumors that Mazatlan actually had fallen into the hands of rebels. If this be true the surrender of the city apparently was made while a portion of Governor Rodo's force was en route to Culiacan.

The rebels began an attack on Mazatlan at 1 o'clock Saturday morning last, according to the telegram, and there was spirited fighting for an hour.

PEACE COMMISSIONER ON JOB

Formal Negotiations Between Two
Forces to Begin.

El Paso, Tex., May 3.—Judge Francisco Carabajal, official Mexican peace commissioner, arrived here, surprising every one connected with the negotiations, as he had not been expected for at least twenty-four hours more.

He immediately went into conference with Oscar Braniff, Esquibal Obregon and Rafael Hernandez, who have been acting as go betweens in the negotiations thus far.

At the conclusion of the conference Senator Braniff announced that Judge Carabajal had brought "full and necessary powers" for treating with the rebel commissioners and that no hitch would occur on that score.

It was stated that the formal negotiations would be taken up at once.

TWO AMERICANS ARE KILLED

Reports Say Man and Wife Were
Slain by Mexican Outlaws.

Douglas, Ariz., May 3.—Reports received here say that an American and his wife, names unknown, have been killed by outlaws in the interior of Sonora.

United States residents here are advising their friends in Mexico to get out of that country.

Rebels are reported to be preparing for another attack on Agua Prieta.

MINING CAMP IS RECAPTURED

Rebels Say they are Once More in
Possession of La Colorado.

Tucson, Ariz., May 3.—The rebels say they have recaptured La Colorado, a rich mining camp, which was captured once before by the insurgents and retaken in a bloody battle by the federals.

SAMUEL GOMPERS IN CHICAGO

Labor Leader Is Looking Over Strike
Situation.

Chicago, May 3.—Important developments in union labor are expected as a result of the visit to Chicago of Samuel Gompers, president of the American Federation of Labor. Frank Mulholland of Toledo, O., counsel for the building trades branch of the federation; William Spencer, secretary treasurer of the same branch, and Frank Ryan of Indianapolis, president of the International Bridge and Structural Iron Workers.

STRIKERS ACCEPT TERMS

Button Workers at Muscatine Vote
to Return to Work.

Muscatine, Ia., May 3.—At the mass meeting of the union button workers the agreement entered into between the manufacturers and the workers' committee through the good offices of Governor Carroll was accepted and the men will go back to work.

At the shop meetings the men voted to accept the agreement by a vote of two to one.

Thrifty.

Agent—Now, please state what conditions you require on the part of the lady. Suitor—A pleasant exterior, 20-600 marks dowry, domestic training and 6½ size gloves. Agent—May I ask why you fix upon the last named condition? Suitor—Well, you see, a few years ago I won six pairs of ladies' gloves, 6½ size, in an exhibition lottery, and you can't expect me to throw them away.

"The Store of Quality"

NOTED EDITOR VISITS RANGE

J. T. Murphy, of the Superior Tele-
gram, inspects his properties
on Range

J. T. Murphy, a public spirited and
prominent business man of Superior,
Wis., and editor of the Superior Tel-
egram, was in Brainerd today. He
had just come back from a winter's
sojourn in California and stopped at
Brainerd and Deerwood to view some
of his properties on the Cuyuna
range.

Mr. Murphy is a firm believer in the
greatness and permanency of the Cuy-
una range and has large interests at
and near Brainerd. He is an officer
in the company of Superior people
which is drilling and developing what
is known as the Jack Olmstead home-
stead situated near Little Rabbit lake
in section 18, 46-29.

In this company Dr. H. J. O'Brien
is president; Dr. R. J. Sewall, of
Crosby, vice president; Charles W.
Potts, of Superior, secretary; and
J. T. Murphy, treasurer. The drill-
ing now in progress is being done un-
der the supervision of Charles W.
Potts and in conjunction with the
Williams-Brown interests whose
properties adjoin on the east. These
drill holes are what is known by
drillers as a set of "union holes" lo-
cated on the boundary between the
two tracts.

One has been struck in paying
quantities and at such shallow depth
as to give credence to the story that
the mine may eventually become an
"open pit" mine.

RESOLUTIONS

At a meeting in regular session on
April 28th, 1911, of Pine City Lodge
No. 116, Brotherhood of Boilermak-
ers, helpers of America, the following
resolutions were adopted:

Resolved, that we, the officers and
members of above lodge, after
thorough investigation and discus-
sion hereby protest against the Boy
Scout movement. We find that it is
more of a military than an educa-
tional movement, and is more liable
to render a war-like spirit in the fu-
ture generation, than that spirit of
peace, which goes to the building of
a good citizen of our country, and
would advise all parents to investi-
gate this movement before allowing
their boys to participate, and be it
further

Resolved, that a copy of this reso-
lution be placed as a record on the
minutes of this meeting and a copy
sent to the press for publication.

ATTRACTIVE HOMES

GOOD PAINT PUTS THE
"FINISHING TOUCH"
ON YOUR HOME.

Good Paint serves the house in the
same way clothing serves our bodies.
It makes our homes attractive, cheer-
ful, wholesome; it protects them from
wind and weather.

Good Paint, Blood's Paint, lends an
air of refinement, adds an artistic
charm to our homes while affording
them every protection Good Paint can.
It does this at a smaller yearly cost
than other paints. The way it is made
makes it wear longer and look better.
That's the chief reason why we sell
and recommend it.

COUNCIL CONFIRMS DUNN APPOINTEES

Appointments Include Positions on Water and Light, Park and Library Boards

Geo. Ridley, Chief of Police

Ryan, City Attorney; Roderick, City Clerk; Rowley, President of the Council

The first session of the new council was held last evening and all members of the council composed of Aldermen Rowley, Lagerquist, Elder, Webb, Henning, Olson, Fogelstrom, Anderson, Purdy and Dieckhaus were present.

The first business was the selection of a president to act as the presiding officer and on the informal ballot first taken Alderman Rowley polled 3, Elder 3, Webb 3, and Henning 1 vote. The formal ballot resulted in the election of Rowley by 6 votes, Elder receiving 1, Webb 2 and Henning 1 vote. Mr. Rowley was duly declared elected president of the council.

President Rowley thanked the council for the distinction conferred on him and said he would try to rule fairly and impartially and do his best to promote the business at the meetings and to preserve harmony.

For vice president Aldermen Webb and Dieckhaus were placed in nomination. The first ballot gave each five votes. On the second ballot Dieckhaus gained one vote and was elected.

Two applications were read for the position of city clerk and the informal ballot gave Roderick, present incumbent, 8 votes and M. K. Swartz 2 votes. On motion the ballot was voted formal and V. N. Roderick was declared elected city clerk.

Two ballots were taken for city attorney. On the formal ballot M. E. Ryan, present incumbent, secured 5 votes, Jay Henry Long 3, A. D. Polk 1 and W. W. Bane 1 vote. On the second ballot Mr. Ryan won the position with 6 votes, Long securing 3 and Polk 1 vote.

A message of the mayor attached to his appointments was read and stated: "I hoped to be with you tonight, but my health is such that I am still unable to leave my room. Wishing you two years of successful and harmonious work, I am respectfully yours, H. P. Dunn, Mayor."

After considerable parliamentary fencing in which a motion and two amendments were offered and the first vote taken was reconsidered, the council confirmed the mayor's appointments. They are:

Member water and light board for six years, Joseph Schwartz.

Member park board for six years, H. W. Linnemann.

Member of park board to fill two year vacancy, Jens Molstad.

Member of the library board, six year terms, Swan Johnson, Mrs. C. B. Rowley and Mrs. C. M. Patek.

Member of library board to fill two year term, Katherine Cosgrove.

Chief of police, George Ridley.

Police captain, Henry Hurley.

Police patrolmen, J. P. Barney, S. W. Quinn and A. D. Peterson.

The selection of a fire chief, weighmaster and city engineer was postponed until the next meeting.

For weighmaster it is proposed to have the appointee devote his time to the matter and weigh and scale or measure material as outlined in the charter laws, to give a \$500 bond for the faithful performance of his duty and to pay rent for the use of the scales.

Regarding the office of city engineer the clerk was instructed to look up the last two years of expense incurred by the city in its engineering department, and at the next meeting of the council a city engineer will be selected.

As drivers of the fire department teams James Buley and John R. Mutch were unanimously re-elected.

The selection of a building inspector was deferred until the ordinance defining the new duties of this official was understood by the council and at the next meeting the council will probably take action in this matter.

William Barron was elected street commissioner and in the aye and nay vote taken Aldermen Henning, Olson and Anderson voted nay and Aldermen Lagerquist, Fogelstrom, Purdy, Webb, Dieckhaus, Elder and Rowley voted aye.

Consideration of the salaries of officers was deferred to the next meeting.

The city clerk was instructed to advertise for bids for the official printing.

A resolution was adopted placing the bonds of the city clerk at \$1000; municipal court clerk \$1000 and treasurer at \$20,000, the same figures set by the council of two years ago.

The matter of selecting depositaries of the city's funds caused some discussion and J. P. Ernster, president of the Brainerd State Bank objected to being omitted. The matter was laid over to the next meeting.

President Rowley at the conclusion of the session announced that he would make public in a few days his committee appointments. On motion, the new council adjourned.

TO CURE A COLD IN ONE DAY

MAYOR'S MESSAGE VOICES REFORM

Recommends Pure Water Supply—Food Inspection—Play Grounds—Street Lamps

CITY ENGINEERING DATA

To Improve Fire Department—Public Building for City—Clean Streets and Alleys

The mayor, Hon. H. P. Dunn, was unable to attend the first session of the new council last night and his interesting message was read by City Clerk Roderick.

It voices reforms in many places vital to the future growth and prosperity of the city of Brainerd and it was listened to with marked attention by the council and the large number of visitors present in the council chambers. It states as follows:

To the Honorable members of the Common Council of the City of Brainerd:

The next few years will be an important period in the material development of the city of Brainerd. The duties imposed upon your department, and upon my department by the electors of this city are important and demand our most serious consideration. That the people have confidence in your willingness to undertake this task, and to give these questions your most careful study and intelligent judgment, is attested by the splendid majorities that you have received in your election. I share in this feeling of satisfaction at your election, and I assume the duties of the office of mayor with a feeling of confidence that my humble efforts to administer the affairs of the people of Brainerd will meet with your hearty co-operation.

The most important function of a municipal organization is the conservation of the public health. Pure air, pure water, clean food, and a sanitary sewer system are most essential to maintain a healthy public community. Nature has provided us with plenty of pure air and it costs us nothing to obtain it in sufficient quantities. The city owns and operates its own water plant and obtains its supply of water from the Mississippi river. This source of water supply has so often been condemned by eminent authorities that we should at once proceed to take the proper steps to eliminate this danger to public health, and to provide the people of Brainerd, our customers, with an adequate supply of pure water ample for the present and future needs of the city. Reports and recommendations of several engineers have been made to the council in the last few years. I would recommend that they be at once taken up and considered by your honorable body. While we consider the question of an adequate source of pure water supply, due consideration must also be given to the demands and requirements of new water main extensions to territory not now supplied. This is necessary for both domestic use and for fire protection. While the initial expense will be large our subsequent revenues will be increased.

The matter of providing the people with clean food is also a function that a municipality owes the public. Through proper regulation and inspection of our dairies, slaughterhouses, meat and grocery stores, by the board of health, much can be done to promote the health of infants, as well as of adults. The death rate among infants traced to impure milk is appalling. What holds good as to milk also holds good as to other articles of food.

Your predecessors have taken steps to add several new sewer districts, have let the contracts for the same and it becomes your duty to see that the same is properly constructed, and to provide the money necessary for the cost of the same.

Our parks should be the play ground for the young as well as the old. The more we live in the open air the healthier we are. Ample space should be provided in our parks for the various athletic sports along with resting places and beauty spots. A comprehensive plan of parks for the entire city should be adopted and completed in an economical but speedy manner.

For the general convenience and necessity of the public, street lamps should be installed and lighted at an early date. It must be our aim, as it is our duty, to give the people more and cheaper lights consistent with good service. While we have a ten year contract with the Toltz company to furnish us with electric current, now is the time to look to the future and prepare for the requirements and needs of the city at the end of the contract period. We all know that it takes time to get the necessary municipal legislation, to discuss and adopt the proper plans best suited to the interests of all the people.

In the city engineering department we need a tabulation of the existing records consisting mainly of some sewer profiles in the clerk's office. All should be redrawn to a uniform scale, all elevations referred to a common datum and not, as has been customary, each job by itself. We need a system of bench marks and monuments throughout the city, so that all work done will be referred to the same lines and elevations. The sewer and water systems should be located and maps and profiles made, so that builders will not have to tear

up a large portion of the street in order to find the connections. We should have profiles of all the streets, and grades established, so that in locating the grade line for walks, we will not have a repetition of the condition found in a number of our walks, higher on one side of the street than on the other, and the grade line running through one block so noticeably different from the next, as to ruin the looks of our streets. The almost total absence of records in this department makes it hard to estimate the expense for placing this department on a business like basis, however, I recommend that some steps be taken to place the records of this office in an intelligent and permanent form.

Fire protection is also an important municipal function. Considering the crude fire apparatus we have, our fire department is as good as that of any other city of the same size. The direct system of pumping water is considered to be superior for the purpose of fighting fire than any steam engine service. But it ought to be supplemented with a combination chemical, hook and ladder truck. Most of the fires are in the upper stories of our buildings and cannot, as readily, be reached with the former as with the latter system.

However, before we purchase any additional fire apparatus we ought to have a suitable building to house the same. The present building is only an old wooden shell, good enough in its time, but in which it is now impossible to dry hose in the winter. The entire building, heated by a box stove, becomes either too hot or too cold, and the result is rotting hose. Our insurance rates are too high. It is my opinion that the reduction in insurance rates will more than equal the additional increase in taxes resulting on account of equipping an up to date fire apparatus in a modern building. In view of the fact that we have no suitable building to house an efficient fire department; that we pay rent for a council and court chambers, for offices for the city clerk and for the water and light department, I recommend the erection of a public building capable to accommodate all the public departments. The \$600.00 rent we are paying for our present city hall and the amount saved in fuel and damaged hose will more than pay the interest on \$20,000.00 per year.

It has been suggested that I call your attention to the feasibility of laying gas pipe in the same excavation as the new water mains, so as to avoid the necessity of again tearing up the street after the same has been paved.

Application has been made for a licensed public hack livery line, to meet trains, especially at night, and for the general purpose of transporting passengers to all parts of the city at reasonable rates.

It will be our aim to properly keep the streets, alleys and premises clean and in a sanitary condition. For the proper enforcement of the sanitary regulations, I propose to make use of the regular police force, and to patrol the entire limits of the city as often as is consistent with the police service at hand. I urge the strictest economy in the administration of municipal affairs; we stand between the tax payer on one hand, and the expenses necessary for the purpose of carrying on the affairs of the public on the other. It will be my aim to perform the duties of my office to the best of my ability and give the people of Brainerd a good, clean and business like administration.

H. P. DUNN,
Mayor.

MAKES FIRST ARREST

Chief George Ridley Arrests George Funk at Noon for Disorderly Conduct

Only half a day on the force, Chief of Police George Ridley distinguished himself by arresting George Funk, said to be demented, who in broad day light near the noon hour attacked Mrs. George R. West and her lady friend, Mrs. George Powell, of Wadena, as they walking down South Sixth street near the Dispatch office. Funk seized Mrs. West's coat and tore it from her and frightened her into hysterics. Her friend, Mrs. Powell, ran to her home for aid and Chief Ridley came to her assistance. With the aid of Sheriff Reid, and Mr. West the man was taken into custody.

On his person were found a Bible, the proceedings of the Duluth diocese of a church of some denomination and a list of ladies of this city on which the name of Mrs. West stood first. Funk struck viciously at the chief and was handled unceremoniously as a consequence until it was realized he was irresponsible.

It was only lately that the prisoner had been committed to Fergus Falls after committing several serious escapades in the city and many people wonder on what grounds he was released.

At the Empress

The Empress offers a very good bill this week and the pictures shown are of a very high order. "The Outbreak" is the story of an Indian uprising. "Fisher Folks" portrays life among the simple fishermen of the Newfoundland coast. "Oh You Kids" is a most comical offering and sure to amuse the audience. "Paoli Brothers" shows the work of some of the cleverest acrobats in the country who are drawing \$750 per week in the Barnum shows. The illustrated song is a feature and the singing of Grace K. Carlton is much appreciated by the audience.

Natty Neckwear at "Michael's"

We have the new embroidered collars with jabots to match at 50c the set which are attracting much attention from good dressers.

Our lace Dutch collars are very pretty and we show a large line at reasonable prices.

We have the fishcues which are having the attention of those who want the best in the new. These will appeal to you.

There is a large line of other styles in new things in late creations to be found at our neckwear counter.

H. Michael Co.

SANATORIUM FOR INDIANS

Bill to be Introduced Authorizing the Chippewas to Construct a Hospital

\$100,000 TO BE EXPENDED

To be at Leach Lake and Similar to the State Sanatorium Two Miles Distant

A special from Washington states that Representative Miller has introduced a bill authorizing the Chippewa Indians to expend \$100,000 of their trust fund to construct a tuberculosis sanatorium on Leach lake, near Walker.

There are said to be 11,000 Indians of this tribe who may be afflicted become patients in this proposed sanatorium. It will also be the first institution of the kind to be constructed by Indians out of their own money to fight the ravages of the great white plague.

The proposed sanatorium will be modeled after the state sanatorium at Walker. These two institutions will be located a few miles apart, but the proposed location of the Indian sanatorium is said to be superior in that it will be in the big white pine region and the only big white pine tract now existing.

BANK AT BARROWS

Application Made to State to Register Title, "First State Bank of Barrows"

Before even the sale of lots has commenced in the new townsite of Barrows comes the announcement that application has been made to the state banking department to register the title of "The First State Bank of Barrows."

On Monday, May eighth, the opening sale of lots will be held and from the interest evidenced in the new townsite south of Brainerd it is certain that the agents, Messrs. John Krokelberg and E. C. Bane will dispose of many business and residence lots.

A large amount of improvement work will be done this year. As the first town on the south range its progress will be watched with a deep interest and its growth will be in a measure re-act beneficially on Brainerd.

LOW WATER DELAYS DRIVE

Logs Have Only Reached a Point 4 Miles South of Brainerd on Way To Little Falls

On Saturday a crew of 100 men under Ed. Lavoie left Little Falls to clear the river of logs between Little Falls and St. Cloud.

The drive that started from Brainerd several days ago has had considerable trouble on account of the low water and is now only about four miles south of Brainerd. Mr. Webb has made the statement that he did not expect them to arrive in Little Falls for three weeks.

Sincerity Clothes
ESTABLISHED 1891 BY
EUN, NATHAN & FISCHER CO.

You've Got to Be a Good Judge of Clothes Unless Your Clothier Is

Maybe you're an old resident. Maybe you are an addition to the town. In either case, let us tell you this, that clothes satisfaction depends to a great extent upon your clothier.

If, when you are ready to purchase a Spring Suit, you'll make it a point to deal with a reputable clothier you can rest assured that any price you pay will purchase clothes which will give you service—clothes which you can depend on.

Sincerity Clothes

have a country-wide reputation for goodness. We sell them. In this case you have two extraordinary factors working together for your satisfaction—"Sincerity Clothes" and ourselves.

Bye & Peterson

COUNCIL CONFIRMS DUNN APPOINTEES

Appointments Include Positions on
Water and Light, Park and
Library Boards

W. O. RIDLEY, CHIEF OF POLICE

Ryan, City Attorney; Roderick, City
Clerk; Rowley, President of
the Council

The first session of the new council was held last evening and all members of the council composed of Aldermen Rowley, Lagerquist, Elder, Webb, Henning, Olson, Fogelstrom, Anderson, Purdy and Dieckhaus were present.

The first business was the selection of a president to act as the presiding officer and on the informal ballot first taken Alderman Rowley polled 3, Elder 3, Webb 3, and Henning 1 vote. The formal ballot resulted in the election of Rowley by 6 votes, Elder receiving 1, Webb 2 and Henning 1 vote. Mr. Rowley was duly declared elected president of the council.

President Rowley thanked the council for the distinction conferred on him and said he would try to rule fairly and impartially and do his best to promote the business at the meetings and to preserve harmony.

For vice president Aldermen Webb and Dieckhaus were placed in nomination. The first ballot gave each five votes. On the second ballot Dieckhaus gained one vote and was elected.

Two applications were read for the position of city clerk and the informal ballot gave Roderick, present incumbent, 8 votes and M. K. Swartz 2 votes. On motion the ballot was voted formal and V. N. Roderick was declared elected city clerk.

Two ballots were taken for city attorney. On the formal ballot M. E. Ryan, present incumbent, secured 5 votes, Jay Henry Long 3, A. D. Polk 1 and W. W. Bane 1 vote. On the second ballot Mr. Ryan won the position with 6 votes, Long securing 3 and Polk 1 vote.

A message of the mayor attached to his appointments was read and stated: "I hoped to be with you tonight, but my health is such that I am still unable to leave my room. Wishing you two years of successful and harmonious work, I am respectfully yours, H. P. Dunn, Mayor."

After considerable parliamentary fencing in which a motion and two amendments were offered and the first vote taken was reconsidered, the council confirmed the mayor's appointments. They are:

Member water and light board for six years, Joseph Schwartz.

Member park board for six years, H. W. Linnemann.

Member of park board to fill two year vacancy, Jens Molstad.

Member of the library board, six year terms, Swan Johnson, Mrs. C. B. Rowley and Mrs. C. M. Patek.

Member of library board to fill two year term, Katherine Cogrove. Chief of police, George Ridley. Police captain, Henry Hurley. Police patrolmen, J. P. Barney, S. W. Quinn and A. D. Peterson.

The selection of a fire chief, weighmaster and city engineer was passed over until the next meeting.

For weighmaster it is proposed to have the appointee devote his time to the matter and weigh and scale or measure material as outlined in the charter laws, to give a \$500 bond for the faithful performance of his duty and to pay rent for the use of the scales.

Regarding the office of city engineer the clerk was instructed to look up the last two years of expense incurred by the city in its engineering department, and at the next meeting of the council a city engineer will be selected.

As drivers of the fire department teams James Buley and John R. Mutch were unanimously re-elected.

The selection of a building inspector was deferred until the ordinance defining the new duties of this official was understood by the council and at the next meeting the council will probably take action in this matter.

William Barron was elected street commissioner and in the aye and nay vote taken Aldermen Henning, Olson and Anderson voted nay and Aldermen Lagerquist, Fogelstrom, Purdy, Webb, Dieckhaus, Elder and Rowley voted aye.

Consideration of the salaries of officers was deferred to the next meeting.

The city clerk was instructed to advertise for bids for the official printing.

A resolution was adopted placing the bonds of the city clerk at \$1000; municipal court clerk \$1000 and treasurer at \$20,000, the same figures set by the council of two years ago.

The matter of selecting depositaries of the city's funds caused some discussion and J. P. Ernster, president of the Brainerd State Bank objected to being omitted. The matter was laid over to the next meeting.

President Rowley at the conclusion of the session announced that he would make public in a few days his committee appointments. On motion, the new council adjourned.

MAYOR'S MESSAGE VOICES REFORM

Recommends Pure Water Supply—
Food Inspection—Play Grounds
—Street Lamps

CITY ENGINEERING DATA

To Improve Fire Department—Public Building for City—Clean Streets and Alleys

The mayor, Hon. H. P. Dunn, was unable to attend the first session of the new council last night and his interesting message was read by City Clerk Roderick.

It voices reforms in many places vital to the future growth and prosperity of the city of Brainerd and it was listened to with marked attention by the council and the large number of visitors present in the council chambers. It states as follows:

To the Honorable members of the Common Council of the City of Brainerd:

The next few years will be an important period in the material development of the city of Brainerd. The duties imposed upon your department, and upon my department by the electors of this city are important and demand our most serious consideration. That the people have confidence in your willingness to undertake this task, and to give these questions your most careful study and intelligent judgment, is attested by the splendid majorities that you have received in your election. I share in this feeling of satisfaction at your election, and I assume the duties of the office of mayor with a feeling of confidence that my humble efforts to administer the affairs of the people of Brainerd will meet with your hearty co-operation.

The most important function of a municipal organization is the conservation of the public health. Pure air, pure water, clean food, and a sanitary sewer system are most essential to maintain a healthy public community. Nature has provided us with plenty of pure air and it costs us nothing to obtain it in sufficient quantities. The city owns and operates its own water plant and obtains its supply of water from the Mississippi river. This source of water supply has so often been condemned by eminent authorities that we should at once proceed to take the proper steps to eliminate this danger to public health, and to provide the people of Brainerd, our customers, with an adequate supply of pure water ample for the present and future needs of the city. Reports and recommendations of several engineers have been made to the council in the last few years. I would recommend that they be at once taken up and considered by your honorable body. While we consider the question of an adequate source of pure water supply, due consideration must also be given to the demands and requirements of new water main extensions to territory not now supplied. This is necessary for both domestic use and for fire protection. While the initial expense will be large our subsequent revenues will be increased.

The matter of providing the people with clean food is also a function that a municipality owes the public. Through proper regulation and inspection of our dairies, slaughterhouses, meat and grocery stores, by the board of health, much can be done to promote the health of infants, as well as of adults. The death rate among infants traced to impure milk is appalling. What holds good as to milk also holds good as to other articles of food.

Your predecessors have taken steps to add several new sewer districts, have let the contracts for the same and it becomes your duty to see that the same is properly constructed, and to provide the money necessary for the cost of the same. Our parks should be the play ground for the young as well as the old. The more we live in the open air the healthier we are. Ample space should be provided in our parks for the various athletic sports along with resting places and beauty spots. A comprehensive plan of parks for the entire city should be adopted and completed in an economical but speedy manner.

For the general convenience and necessity of the public, street lamps should be installed and lighted at an early date. It must be our aim, as it is our duty, to give the people more and cheaper lights consistent with good service. While we have a ten year contract with the Toltz company to furnish us with electric current, now is the time to look to the future and prepare for the requirements and needs of the city at the end of the contract period. We all know that it takes time to get the necessary municipal legislation, to discuss and adopt the proper plans best suited to the interests of all the people.

In the city engineering department we need a tabulation of the existing records consisting mainly of some sewer profiles in the clerk's office. All should be redrawn to a uniform scale, all elevations referred to a common datum and not, as has been customary, each job by itself. We need a system of bench marks and monuments throughout the city, so that all work done will be referred to the same lines and elevations. The sewer and water systems should be located and maps and profiles made, so that builders will not have to tear

up a large portion of the street in order to find the connections. We should have profiles of all the streets, and grades established, so that in locating the grade line for walks, we will not have a repetition of the condition found in a number of our walks, higher on one side of the street than on the other, and the grade line running through one block so noticeably different from the next, as to ruin the looks of our streets. The almost total absence of records in this department makes it hard to estimate the expense for placing this department on a business like basis, however, I recommend that some steps be taken to place the records of this office in an intelligent and permanent form.

Fire protection is also an important municipal function. Considering the crude fire apparatus we have, our fire department is as good as that of any other city of the same size. The direct system of pumping water is considered to be superior for the purpose of fighting fire than any steam engine service. But it ought to be supplemented with a combination chemical, hook and ladder truck. Most of the fires are in the upper stories of our buildings and cannot, as readily, be reached with the former as with the latter system. However, before we purchase any additional fire apparatus we ought to have a suitable building to house the same. The present building is only an old wooden shell, good enough in its time, but in which it is now impossible to dry hose in the winter. The entire building, heated by a box stove, becomes either too hot or too cold, and the result is rotting hose. Our insurance rates are too high. It is my opinion that the reduction in insurance rates will more than equal the additional increase in taxes resulting on account of equipping an up to date fire apparatus in a modern building. In view of the fact that we have no suitable building to house an efficient fire department; that we pay rent for a council and court chambers, for offices for the city clerk and for the water and light department, I recommend the erection of a public building capable to accommodate all the public departments. The \$600.00 rent we are paying for our present city hall and the amount saved in fuel and damaged hose will more than pay the interest on \$20,000.00 per year.

It has been suggested that I call your attention to the feasibility of laying gas pipe in the same excavation as the new water mains, so as to avoid the necessity of again tearing up the street after the same has been paved. Application has been made for a licensed public hack livery line, to meet trains, especially at night, and for the general purpose of transporting passengers to all parts of the city at reasonable rates. It will be our aim to properly keep the streets, alleys and premises clean and in a sanitary condition. For the proper enforcement of the sanitary regulations, I propose to make use of the regular police force, and to patrol the entire limits of the city as often as is consistent with the police service at hand. I urge the strictest economy in the administration of municipal affairs; we stand between the tax payer on one hand, and the expenses necessary for the purpose of carrying on the affairs of the public on the other. It will be my aim to perform the duties of my office to the best of my ability and give the people of Brainerd a good, clean and business like administration.

H. P. DUNN,
Mayor.

MAKES FIRST ARREST

Chief George Ridley Arrests George Funk at Noon for Disorderly Conduct

Only half a day on the force, Chief of Police George Ridley distinguished himself by arresting George Funk, said to be demented, who in broad day light near the noon hour attacked Mrs. George R. West and her lady friend, Mrs. George Powell, of Wadena, as they walking down South Sixth street near the Dispatch office.

Funk seized Mrs. West's coat and tore it from her and frightened her into hysterics. Her friend, Mrs. Powell, ran to her home for aid and Chief Ridley came to her assistance. With the aid of Sheriff Reid, and Mr. West the man was taken into custody. On his person were found a Bible, the proceedings of the Duluth diocese of a church of some denomination and a list of ladies of this city on which the name of Mrs. West stood first. Funk struck viciously at the chief and was handled unceremoniously as a consequence until it was realized he was irresponsible.

It was only lately that the prisoner had been committed to Fergus Falls after committing several serious escapades in the city and many people wonder on what grounds he was released.

At the Empress

The Empress offers a very good bill this week and the pictures shown are of a very high order. "The Outbreak" is the story of an Indian uprising. "Fisher Folks" portrays life among the simple fishermen of the Newfoundland coast. "Oh You Kids" is a most comical offering and sure to amuse the audience. "Paoli Brothers" shows the work of some of the cleverest acrobats in the country who are drawing \$750 per week in the Barnum shows. The illustrated song is a feature and the singing of Grace K. Carlton is much appreciated by the audience.

Sentiment
Or Business?

On Which Basis Do YOU Advertise?

Some men buy advertising space in a paper because the paper tells that "it deserves their support," not because the space will produce results.

Then they charge the amount up to their advertising appropriation.

An advertising appropriation is the seed of the modern business, properly sown and cultivated it will multiply a hundred fold.

So that each cent taken from the advertising appropriation robs the advertiser not of one cent, but of a potential dollar.

Be charitable, not with the seed, but out of the abundance of the harvest! Next time a paper approaches you with an appeal for your "support"—subscribe for the paper out of your private purse if you like and have it sent to a friend, but don't buy alleged "advertising" space and deduct the cost from the amount you can afford to spend in real advertising.

Business and sentiment are oil and water—they don't mix. The heavy lidded poppies luxuriate over the business-graves of hundreds who have refused to accept this truism.

And remember—every time you "buy" 10 cents worth of space in a worthless advertising medium you are throwing nine dollars and ninety cents into the Mississippi river.

That isn't even charity—it's just foolishness!

RARE TREASURES
OF THE INDIANS

Smithsonian Institution Gets
Four Sacred Usage Packages.

HOLIST FETISH OF THE TRIBE

They Are Generally Buried With Their "Keepers"—Tattooing Apparatus and Materials Used—Also Circlet of Human Scapulae Among the Contents of Bundles.

Officials of the bureau of American ethnology of the Smithsonian institution at Washington are highly pleased over an addition which they have just made to their collection and which they regard as one of their choicest treasures. This acquisition comprises four sacred bundles or packs of the Osage Indians, very few of which have ever been obtained by scientists, as they are generally buried with their "keepers."

These sacred bundles are just as precious from a religious standpoint to the Indian as they are from a scientific standpoint to the ethnologist and are extremely hard to obtain. They represent the holiest fetish of a tribe, and so zealously are they guarded from any profanation that they are put in the charge of a special priest or medicine man, who keeps them carefully hidden. At certain periods they are opened and the contents worshipped amid the most elaborate ceremonies, but even at these times only the chosen men of the tribe are allowed to see the strangely assorted articles that are kept in the bundles.

How They Were Secured.

The bundles were secured for the National museum by Francis La Fleshe, an educated Omaha Indian, who is in the employ of the bureau of American ethnology. While at work in Oklahoma he learned of the existence of such bundles and immediately opened negotiations with the Indian to whose care they had been entrusted. After exercising considerable diplomacy he succeeded in persuading

In the District Court of the United States for the District of Minnesota, Fifth Division.

ACKNOWLEDGED IT

Brainerd Has to Bow to the Inevitable—Scores of Citizens Prove it

After reading the public statement of this representative citizen of Brainerd given below, you must come to this conclusion: A remedy which cured years ago, which has kept the kidneys in good health since, can be relied upon to perform the same work in other cases. Read this:

Miss Katherine Bone, 601 S. Sixth St., Brainerd, Minn., says: "In view of my own experience with Doan's Kidney Pills and that of my friends, I know this remedy to be a reliable one for troubles, caused by disordered kidneys. A short time ago I procured a box of Doan's Kidney Pills from a local drug store and used them for weakness and a dull, tired ache across my back. In a short time they entirely relieved me. One of my relatives was also cured of a similar complaint by the use of this remedy." (Statement given August 31, 1908.)

A SECOND STATEMENT.

When Miss Bone was interviewed on October 12, 1910, she said: "I cheerfully endorse Doan's Kidney Pills again, as I feel that I cannot praise them too highly. This remedy has certainly worked wonders in my case."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—take no other.

The Indian to part with them and took them to Washington and turned them over to the bureau of ethnology.

One of these was opened with much care by Dr. Walter Hough, one of the curators of the National museum. Dr. Hough found the outside wrapping or sack to be made of a rare Indian fabric woven of the silky brow hair of the buffalo. This was bound with a buckskin band decorated with human scapulae and the leg of an eagle. Inside this was a buckskin bag, and inside that a haversack made of a material resembling Chinese matting.

Most Sacred Object.

In this haversack were a pipe decorated with scapulae, a tobacco bag, a braided cord made of woolen fabric and a bundle of buffalo bladders bound with a thong ornamented with scapulae, and one other bundle, which was the most important of all, for it represented the "holy of holies." This bundle was a buckskin case, to which was bound a buckskin object resembling a head band. Inside this bundle was found the most sacred object of the pack—the body of a hawk, which had been mummified and then painted a brilliant vermilion and green. Attached to the tail was a circlet of human scapulae. The body was suspended by a braided band made of woolen fabrics which evidently had been obtained by the tribe through trade with other Indians.

One of the three other bundles was found to contain the tattooing apparatus and materials used by the Osage Indians, all of which are regarded as sacred, as the tattooing is a religious ceremony. The other two packs were similar to the one described, but the articles each contained were different.

GREATER SAFEGUARDS
PLACED AROUND POPE.

No One Hereafter Is to Be Received by Him Informally.

The Vatican authorities realize that had the man Desanti, who shot at a priest in St. Peter's recently and who confessed that he intended to make an attempt on the pope's life, been a more intelligent and more determined man he could easily have reached the papal apartments. They have consequently decided to increase the surveillance over the apostolic palaces and take special precautions to guard the pope. Cardinal Merry del Val, the papal secretary of state, has had conferences on the subject with the papal major domo, the prefect of the apostolic palaces and the commanders of the gendarmes and the Swiss guards.

It was suggested by these gentlemen that gendarmes and Swiss guards in plain clothes should be stationed at the papal antechambers with orders to allow no one under any pretext to enter the audience chamber unless able to show a ticket from the major domo. It was also suggested that, if possible, visitors to the Vatican gardens should be escorted by gendarmes, that tickets for collective audiences or religious functions should not be given to anybody not personally acquainted with the major domo or who is not provided with a letter of introduction from a responsible person and that when the pope takes his daily walk in the gardens he should be accompanied by four of the noble guards.

The pope was at first unwilling to submit to these measures, which, he said, restricted his personal liberty, and he considered it unnecessary, as he felt sufficiently protected by Providence, but Cardinal Merry del Val convinced him that the precautions were as dangerous as anarchists and persuaded the pontiff that the precautions were fully justified. The pope then unwillingly promised to discontinue the practice of receiving his fellow countrymen from Venice informally, as it was pointed out to him that had Desanti, who is a native of Istria and consequently speaks the Venetian dialect, pretended that he was a Venetian and asked to see the pontiff he could easily have obtained access to the audience chamber even without applying for a ticket to the major domo.

Rare Coins.

Coins that virtually have disappeared from circulation are gold three and one dollar pieces, the trade dollar of silver, the nickel three cent piece, the copper two cent piece, the copper half cent and silver three and five cent pieces.

ARAB MOUNTS
FOR CAVALRY

The War Department May Give Them a Trial.

CROSS WITH THOROUGHBREDS

That Is General Wood's Idea, and He Is Negotiating With Spencer Borden, a Breeder of Arabs—America Far Behind Other Countries in This Respect.

In its anxiety to develop better cavalry mounts for the army the war department is considering giving a trial to Arabs. General Leonard Wood, chief of the general staff, is negotiating with Spencer Borden of Fall River, Mass., a breeder of Arabs.

At the present time the American cavalry is far behind the cavalry of the European armies in the matter of mounts. England, Germany and France have long paid close attention to the breeding of cavalry horses, and especially mounts for officers, with the result that their horses have reached practically perfection for the work asked of them.

When the order came for the troops to go to the Texas border General Wood had to go into the market and purchase at high prices horses for many of the officers ordered to the maneuvers. The horse dealers of Virginia and Maryland reaped a harvest as a result. In one Virginia town \$7,000 worth of hunters were sold at prices ranging from \$700 to \$2,000 each.

The army stud farm already has a good start with a couple of racing stallions presented to the government by August Belmont, but General Wood is anxious to see if an intermingling of the American thoroughbred with the Arab may not produce a good standard cavalry horse.

The ideal of the American army officers is the type of cavalry horse used by English officers. This type is close to the thoroughbred English hunter, which has no exact parallel in this country. It is a bigger, stronger horse than the racing type and much harder in every way.

To supply the army with such horses by purchase would mean an enormous outlay. The animals would have to be purchased from the country at a minimum price of about \$600.

The Growth of English.

There are now 400,000 words in the English dictionary, exclusive of foreign languages. Back three centuries Shakespeare carried about in his head five times as many words as the dictionary then contained. Today it has a hundred words for every one which a good writer will use. The greatest gains in the number of words recorded within the last fifty years have, of course, come from a minute raking over of all accessible English documents and from special branches of human labor, particularly the sciences, in which changing conditions have made necessary hosts of new terms.

Fountain Pens.

A book dated 1795 contains a description and illustration of a fountain pen.

PROPOSAL.

School Building, Deerwood, Minn.

Sealed bids for the erection of a two story and basement four room brick school building, addressed to the undersigned and endorsed, "Deerwood School," will be received on or before May 10, 1911 at 3 o'clock P. M., and then opened.

A certified check, payable to the clerk of the board, in the sum of 5 per cent of bid, to accompany each bid. Plans and specifications are on file at the Builders Exchange, Duluth, Minn., and with the undersigned, and the architects, Vernon J. Price & Co., Duluth, Minn.

Separate bids on the heating, plumbing and water system will be received at the same time and date.

A deposit of \$10 on plans for general contract, and \$5 for heating, plumbing and water system must be left with the architects or clerk of the board as a guarantee, that plans will be returned at time agreed upon and bid placed in.

On opening of bids deposits will be returned.

C. B. WRIGHT,
Clerk of School Board,
School Dist. No. 7, Deerwood, Minn.

COPENHAGEN SNUFF

GUARANTEE OF QUALITY AND PURITY

Copenhagen Snuff is made of the best, old, rich, high-flavored leaf tobacco, to which is added only such ingredients as are component parts of natural leaf tobacco and absolutely pure flavoring extracts. The Snuff Process retains the good of the tobacco and expels the bitter and acid of natural leaf tobacco.

AMERICAN SNUFF COMPANY, 111 Fifth Avenue, New York, N. Y.

Twist of the Pretzel.

The pretzel is capable of infinite possibilities in the matter of shape. It shows almost as many forms as do the leaves of trees. The construction of the pretzel may be not inaptly described in sailor terms. Its peculiar shape is attained in this way: A bight is taken in a roll of dough, and the ends are given a half twist and brought back upon the opposite sides of the bight. This process gives to the pretzel a heart shaped appearance, but no one ever ventured to hint that any sentimental reason existed for assigning this shape to such a prosaic thing as a pretzel. When the pretzel has been duly "varnished" it is subjected to a process of salting, and the thing is complete.—Harper's.

Care With Mushrooms.

It is not generally known that mushrooms on account of the amount of nitrogen they contain approach nearer to animal food than many other vegetable products. An analysis made by Professor Attwood shows that mushrooms contain 3.5 per cent proteins, boiled potatoes 2.5 and onions 1.6. Experts say that mushrooms should be eaten after repeating or being "warmed over." One of the extensive mushroom farmers in England says that persons subject to rheumatic and gouty attacks should abstain from mushrooms and that liquor should not be drunk at a meal where mushrooms are served.—New York World.

AWAKE NIGHTS

Children were intended to sleep nights. When they are wakeful and fretful, it is time to worry. Kickapoo Worm Killer (the delicious candy tablets) is a great medicine for children. It cleans the system of poisonous substances which cause sleeplessness. It removes acids which impoverish the blood; it tones up all of the functions; it makes strong, healthy children.

Sentiment Or Business?

On Which Basis Do YOU Advertise?

Some men buy advertising space in a paper because the paper tells that "it deserves their support," not because the space will produce results.

Then they charge the amount up to their advertising appropriation.

An advertising appropriation is the seed of the modern business, properly sown and cultivated it will multiply a hundred fold.

So that each cent taken from the advertising appropriation robs the advertiser not of one cent, but of a potential dollar.

Be charitable, not with the seed, but out of the abundance of the harvest! Next time a paper approaches you with an appeal for your "support"—subscribe for the paper out of your private purse if you like and have it sent to a friend, but don't buy alleged "advertising" space and deduct the cost from the amount you can afford to spend in real advertising.

Business and sentiment are oil and water—they don't mix. The heavy lidded poppies luxuriate over the business-graves of hundreds who have refused to accept this truism.

And remember—every time you "buy" 10 cents worth of space in a worthless advertising medium you are throwing nine dollars and ninety cents into the Mississippi river.

That isn't even charity—it's just foolishness!

RARE TREASURES OF THE INDIANS

Smithsonian Institution Gets Four Sacred Osage Packages.

HOLDEST FETISH OF THE TRIBE

They Are Generally Buried With Their "Keepers"—Tattooing Apparatus and Materials Used—Also Circlet of Human Scapula Among the Contents of Bundles.

Officials of the bureau of American ethnology of the Smithsonian institution at Washington are highly pleased over an addition which they have just made to their collection and which they regard as one of their choicest treasures. This acquisition comprises four sacred bundles or packs of the Osage Indians, very few of which have ever been obtained by scientists, as they are generally buried with their "keepers."

These sacred bundles are just as precious from a religious standpoint to the Indian as they are from a scientific standpoint to the ethnologist and are extremely hard to obtain. They represent the holiest fetich of a tribe, and so zealously are they guarded from any profanation that they are put in the charge of a special priest or medicine man, who keeps them carefully hidden. At certain periods they are opened and the contents worshiped amid the most elaborate ceremonies, but even at these times only the chosen men of the tribe are allowed to see the strangely assorted articles that are kept in the bundles.

How They Were Secured.
The bundles were secured for the National museum by Francis La Fleshe, an educated Omaha Indian, who is in the employ of the bureau of American ethnology. While at work in Oklahoma he learned of the existence of such bundles and immediately opened negotiations with the Indian to whose care they had been entrusted. After exercising considerable diplomacy he succeeded in persuading

In the District Court of the United States for the District of Minnesota, Fifth Division

In the Matter of Christian Johnson Evensta and Inga Bargetta Evensta, Partners as C. J. Evensta and as Individuals, Bankrupts, in Bankruptcy. To the creditors of Christian Johnson Evensta and Inga Bargetta Evensta, partners as C. J. Evensta and as individuals, in the County of Crow Wing, district aforesaid, bankrupt.

Notice is hereby given that on the 25th day of April, 1911, the said Christian Johnson Evensta and Inga Bargetta Evensta, partners as C. J. Evensta and as individuals were duly adjudged bankrupt and that the first meeting of their creditors will be held at Suite 604 Paladino Bldg., Duluth, Minnesota, on the 15th day of May, A. D. 1911, at 10 o'clock in the forenoon, at which time the said creditors may attend, prove their claims and appoint a trustee, examine the bankrupts and transact such other business as may properly come before said meeting.

Dated at Duluth, Minnesota, April 27th, 1911.
WILLIAM O. PEALER,
Referee in Bankruptcy.
JAY HENRY LONG,
Attorney for Bankrupts.

Brainerd Has to Bow to the Inevitable—Scores of Citizens Prove it

After reading the public statement of this representative citizen of Brainerd given below, you must come to this conclusion: A remedy which cured years ago, which has kept the kidneys in good health since, can be relied upon to perform the same work in other cases. Read this:

Miss Katherine Bone, 601 S. Sixth St., Brainerd, Minn., says: "In view of my own experience with Doan's Kidney Pills and that of my friends, I know this remedy to be a reliable one for troubles, caused by disordered kidneys. A short time ago I procured a box of Doan's Kidney Pills from a local drug store and used them for weakness and a dull, tired ache across my back. In a short time they entirely relieved me. One of my relatives was also cured of a similar complaint by the use of this remedy." (Statement given August 31, 1908.)

A SECOND STATEMENT.

When Miss Bone was interviewed on October 12, 1910, she said: "I cheerfully endorse Doan's Kidney Pills again, as I feel that I cannot praise them too highly. This remedy has certainly worked wonders in my case."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—take no other.

The Indian to part with them and took them to Washington and turned them over to the bureau of ethnology.

One of these was opened with much care by Dr. Walter Hough, one of the curators of the National museum. Dr. Hough found the outside wrapping or sack to be made of a rare Indian fabric woven of the silky brow hair of the buffalo. This was bound with a buckskin band decorated with human skulls and the leg of an eagle. Inside this was a buckskin bag, and inside that a haversack made of a material resembling Chinese matting.

Most Sacred Object.

In this haversack were a pipe decorated with scalp, a tobacco bag, a braided cord made of woolen fabric and a bundle of buffalo bladders bound with a thong ornamented with scalp, and one other bundle, which was the most important of all, for it represented the "holy of holies." This bundle was a buckskin case, to which was bound a buckskin object resembling a head band. Inside this bundle was found the most sacred object of the pack—the body of a hawk, which had been mummified and then painted a brilliant vermilion and green. Attached to the tail was a circlet of human scalp. The body was suspended by a braided band made of woolen fabrics which evidently had been obtained by the tribe through trade with other Indians.

One of the three other bundles was found to contain the tattooing apparatus and materials used by the Osage Indians, all of which are regarded as sacred, as the tattooing is a religious ceremony. The other two packs were similar to the one described, but the articles each contained were different.

GREATER SAFEGUARDS PLACED AROUND POPE.

No One Hereafter Is to Be Received by Him Informally.

The Vatican authorities realize that had the man Desanti, who shot at a priest in St. Peter's recently and who confessed that he intended to make an attempt on the pope's life, been a more intelligent and more determined man he could easily have reached the papal apartments. They have consequently decided to increase the surveillance over the apostolic palaces and take special precautions to guard the pope. Cardinal Merry del Val, the papal secretary of state, has had conferences on the subject with the papal major domo, the prefect of the apostolic palaces and the commanders of the gendarmes and the Swiss guards.
